AMENDED IN SENATE APRIL 15, 2010

SENATE BILL

No. 1380

Introduced by Senator Hancock

February 19, 2010

An act to ~~amend Section 101012 of, and to add Section 17078.73 to,~~ the Education Code, relating to school facilities.

LEGISLATIVE COUNSEL'S DIGEST

SB 1380, as amended, Hancock. School facilities: construction.

~~(1) Existing~~

Existing law establishes the Career Technical Education Facilities Program as a part of the Leroy F. Greene School Facilities Act of 1998 for the purpose of providing funding to qualifying local educational agencies for constructing new facilities or reconfiguring existing facilities, including purchasing equipment with an average useful life expectancy of at least 10 years, to enhance educational opportunities for pupils in existing high schools.

This bill would require school facilities constructed or modernized ~~using~~ *with* specified bond funds set aside for career technical education purposes to be used for ~~those career technical education~~ purposes for a minimum of 25 years. A school district would be required to provide certification regarding that use to the Office of Public School Construction during the first year of occupation and every 5 years thereafter.

The bill would require school districts applying for a career technical education grant to include teachers of career technical education and members of the local career technical education advisory committee in the design and planning process.

The bill would authorize up to 10% of the funds provided for equipment to be used for the purchase of items or equipment with a life expectancy of at least 5 years.

The bill would require the School Facilities Planning Division of the State Department of Education to review the reservation of funds aspect of the program, make recommendations to facilitate timely use of state bond funds, and submit the findings and recommendations to the State Allocation Board by December 31, 2011.

~~(2) The Kindergarten-University Public Education Facilities Bond Act of 2006 provides for the issuance and sale of \$10,416,000,000 in state general obligation bonds, of which \$7,329,000,000 are for elementary and secondary school facilities. Existing law sets aside \$500,000,000 of the latter amount for purposes relating to facilities for career technical education programs and \$1,000,000,000 for new construction funding for severely overcrowded schoolsites.~~

~~This bill would increase the amount set aside for facilities for career technical education programs to \$700,000,000 and reduce the amount set aside for new construction funding for severely overcrowded schoolsites to \$800,000,000. The bill would contain a Legislative finding and declaration that it is consistent with, and furthers the purpose of the bond act.~~
